TO: Board of Education FROM: Dr. Leslie Bergstrom DATE: March 10, 2025

AGENDA ITEM: C1 - 2025-26 Staffing Plan

INITIATED BY: Dr. Leslie Bergstrom and Administrative Team SUBMITTED BY: Dr. Leslie Bergstrom and Administrative Team

BOARD POLICY OR STATUTORY REFERENCE: None

SUPPORTING DATA: We recommend the Board approve the positions in Section III, Table A based on the preliminary budget. We will continue to monitor the state budget, particularly funding for special education, to determine if there are additional funds for any new positions. We are only seeking the authority to post and fill the positions in Table A to have the most competitive pool of candidates.

When creating our staffing plan recommendation, we used the guiding principles below that were established by the Oregon School Board (last revised on February 9, 2015) as well as Board Policies 175: Student Centered Decision Making and 411: Graduation Requirements - Portrait of a Graduate

I. Oregon School Board Staffing Guiding Principles:

- 1. Class Size. The Administrative Team considered the historical class size guidelines. We strive to maintain class size limits in grades K-3 of 22 or fewer; grades 4-6 25 or fewer; and the class size guideline in grades 7-12 has historically been set at 25 students per class.
- 2. Special Education. We consider the current maximum/minimum guidelines for special education programs as determined by the Department of Public Instruction.
- 3. Open Enrollment. Non-resident students, once admitted, do not have to reapply. Therefore, these students were factored into the enrollment history and growth projections, and historical projections of open enrollment attendance.
- 4. Whole Child. The Board is committed to a well-rounded rigorous curriculum and maintenance of excellent learning and working environments.
- 5. Fiscal Responsibility. The Board is committed to establishing a responsible and appropriate budget for the District.

- 6. Kindergarten. In terms of Kindergarten enrollment, we considered the number of students enrolled by March 3, 2025 the history of new enrollments between May and August, and the current Kindergarten class.
- 7. Grades 4K-12 Enrollments. The tables listed below illustrate enrollment for the past years. The projected number of students for 2025-26 is based on current enrollment rolled forward and new students who have notified us of enrollment as of March 3, 2025. We monitor enrollment on at least a weekly basis and are anticipating additional growth during the spring and summer months. 4K registration recently opened March 3, 2025, so we will monitor those numbers.

II. <u>Budget Summary</u>

The table below is a quick summary of our estimated revenues and expenditures for 2025-26 to allow the Board to understand the big picture of the Budget to make staffing decisions.

III. 4K-12 Staffing Summary of Potential Requests:

Table A

Position	Rationale	Estimated Cost
Special Education Teacher PVE 1.0 FTE	Under federal law, each student who qualifies for special education programming must receive a Free and Appropriate Public Education (FAPE) through an Individualized Education Program (IEP) that is properly developed and implemented. Each IEP has required specialized minutes of instruction and IEP goals that are based on the student's needs in order for the student to progress toward proficiency on the standards.	\$100,000
	After the start of the school year, we had seven students move into PVE who had IEPs or qualified for special education programming. We were not able to meet the specialized minutes of instruction required in the students' IEPs without adding a case manager. To meet our legal obligations, we hired an interim case manager this school year and are seeking to make that position a permanent position because the needs are continuing.	
Occupational Therapist (OT) District-Wide 0.5 FTE	Under federal law, schools are required to provide occupational therapy when a child with a disability requires this related service to assist the child to benefit from special education. OTs use purposeful activity to facilitate a child's active participation in self-maintenance; academic and vocational pursuits; and play or leisure activities that occur in school environments. A student's IEP will require a certain number of OT minutes for the student to meet the goals in the IEP.	\$50,000
	To ensure we meet the OT required in the student's IEP, we assign caseloads that are in accordance with DPI's administrative code, PI 11.24. The maximum caseload for a full-time therapist is 30 students, but with a licensed assistant, can reach 45 students. We currently have 4.3 FTE in OT and 0.5 FTE COTA who service 145 students who need OT, including 10 students who moved in this year, which means that caseloads are at the maximum guidelines.	
	We project servicing 151 students next year which means that caseloads will exceed the maximum guidelines. With the additional .50 FTE, our caseloads will be within DPI guidelines.	
Program Support Coordinator RCI & OMS 1.0 FTE	We have seen an increased need for behavioral support for students moving into the district. A Program Support Coordinator works with staff to address students' needs in special education programming and assists in providing behavioral support to students. Currently, we have two Program Support Coordinators	\$100,000

	who support pur students in Early Childhood - age 21. After school started this year, we had 38 students move into our District who needed special education programming, and 43 who moved in last year. We need to increase our support. Our total number of students with IEPs has grown to 592 students. <i>See Appendix A</i> .	
Building Substitutes All buildings 7.0 FTE	This year, even with building substitutes, we average around 70% for our fill rates for positions that need guest teachers and around 45% for paraprofessional positions. This has been increasingly challenging for administrators and educators. They are continually asked to cover for other staff, and/or combine classes. We have done our best to minimize absences, and recruit more substitutes, but pay and benefits continue to be a barrier to recruitment efforts. Having building subs this year has made a critical impact.	\$300,000
Total		\$550,000
